// WHO I AM

The mind behind the pipeline

I'm **Shai** — a Virtual Assistant and Lead Generation Specialist with 2+ years of HR and administrative experience. I transitioned into lead generation and built my first full operation from scratch: ICP, SOPs, two-track outreach system, AI-assisted evaluation workflow, and the full reporting stack.

I deliver measurable results: **2,000+ weekly leads at 98% data accuracy**, 50+ interviews scheduled monthly, and 100% accurate records throughout my career. Message-based outreach only — no cold calls, ever.

What I do really well

LinkedIn Outreach — Message-Based Only

Two-track campaigns using LinkedIn Recruiter & Sales Navigator. Targets owners, CEOs, directors, founders, VPs, presidents. Comment-first warm-up, A/B message variants under 300 chars, 3-touch InMail sequences — no cold calls ever.

SAMPLE — JOB CHANGER (TRACK 2)

"Congrats on the new role! Career moves usually come with financial decisions worth thinking through. We match Florida professionals with vetted fiduciary advisors at no cost — worth a look: [link]"

AI-Assisted Lead Evaluation

Pipeline & CRM Management

End-to-end lifecycle tracking from evaluated lead to dormant — Smart Link funnel analysis, tier-based routing, clean founder handoff notes, and dormant tagging after the final sequence touch.
